Dear Annette

I would be grateful if you would let us know what is happening in relation to the 'Combined Declaration and Power of Attorney' and 'Assignment' documents. Our patent attorneys have advised us that this matter is now holding up the US patent application process.

In particular, if you are one of the inventors please would you sign and return the 'Combined Declaration and Power of Attorney' document as a matter of urgency, as this document is needed at this stage of the patent application process. Of course, if you do not feel comfortable in signing the document as you were not heavily involved on this matter, please let us know and our attorneys will remove your name from the inventors' list.

Now that you have the employment information and in view of the underlying legislation concerning employer ownership of inventions by senior employees, we trust that you will feel that it is appropriate to sign the 'Assignment' document. As a matter of courtesy, we would be grateful if you would let us know whether you will be signing this document.

We look forward to hearing from you on this matter.

Regards

Selina
